2022 - 2023 Admission Committee

CMU Research Experience for Undergraduate Program (REU)

The REU program in HCII provides opportunities for undergraduate students to spend ten weeks doing research on HCI. I was a member of the admission committee for two consecutive years and helped review 40+ application materials.

2022 - 2023 Student Co-Lead (w/ Daye Nam)

CMU Graduate Application Support Program (GASP)

GASP is a student-led initiative in the School of Computer Science to offer early feedback to applicants from underrepresented groups. Daye and I matched PhD student volunteers with applicants based on their interests and identities.

2021 Student Host

CMU HCII Preview Weekend

The preview weekend aims to assist underrepresented students as they apply to HCII's master's and PhD programs. I hosted online sessions where we invited applicants to ask questions and faculty to give lab talks.

2020 - 2021 Student Co-Lead (w/ Danaë Metaxa)

Stanford HCI Qualifying Exam, Equity & Justice Update

In light of the Black Lives Matter movement and anti-Asian racism, Danaë and I co-led an initiative at Stanford HCI Group to add readings centered on diversity, equity, and inclusion to the PhD qualifying exam.

2020 - 2021 Community Associate

Stanford Escondido Village Graduate Residences (EVGR)

I worked with the Stanford Graduate Life Office and other community associates on promoting wellness and a sense of community in graduate residences with 1200+ students by coordinating social events centered on cultural diversity.

2016 – 2017 **Co-Director** (w/ Fan-Keng Sun and Jim Liu)

NTUEE Academic Department of the Student Association

We led a team of 30 students to organize various departmental and university events, including research competitions, university fairs, NTUEE+ alumni mixers, etc. We also founded a makerspace and organized a makeathon described below.

2016 – 2017 Co-Founder (w/ Fan-Keng Sun and Jim Liu)

NTUEE Makerspace

We founded a makerspace in the EE department to provide students with prototyping tools for their side projects. For example, during covid-19, our students deployed a system across the campus to detect people's forehead temperatures when entering buildings.

2017 Co-Chair (w/ Fan-Keng Sun and Jim Liu)

MakeNTU Makeathon

We led 60 students and organized the first nationwide makeathon in Taiwan, where we invited 200 participants out of 800+ applicants. We collaborated with the Taipei City Government and 22 companies and received 70K USD in sponsorship.
